March 2010

## **Dear Parents and Guardians,**

### **Traffic Safety – Being Considerate to our neighbours**

We request our parents' co-operation to ensure the safety of our students and at the same time help us be good neighbours to the residents in our vicinity.

Please abide by the following:

➤ **Parking in the designated HDB lots**

We urge parents not to occupy the parking lots reserved for residents. We have had requests and appeals from residents to convey the problems they face. The problems occur when parents occupy season parking lots or lots reserved for the disabled while waiting for our pupils and when parents obstruct residents from driving in or out of the car parks.

The school is usually blamed for not informing our parents about the above. Please use the legitimate visitor lots and do not obstruct traffic or pedestrians particularly senior citizens and the disabled.

➤ **Waiting to fetch your child from school**

At evening dismissal, parents are permitted to drive into the school after 6.45pm. Please do not come too early to park or wait along Serangoon North Ave 4 such that it causes obstruction to other vehicles and congestion along the roads at school dismissal times. You may wish to park your vehicle at the public visitor car parks near the school and fetch your child/ward from the school's pedestrian gates.

Thank You  
Mrs Celine Ng  
Principal
